ED32 ($\dot{\varepsilon} = 0{,}001\ 1/s$)

$\alpha = 2$

$\mu = 0{,}405$ MPa

Tensile Test

Analytical results

$P_{22} = \mu(\lambda - \lambda^{-2})$ $\quad \lambda = 1 + \varepsilon$ $\quad \varepsilon = \frac{u}{L}$

$\sigma_{22} = \lambda P_{22}$
